Subject: Re: Call RE: ERTAC growth tool

I'm on vacation next week but I will call in.

Mark

Hi Joe, Doris and Mark,

Unfortunately, we are completely immersed in 111d rule writing and technical support documentation that we haven't had time to strategize our work with you all with ERTAC growth methodology and AVERT. This is an important project and I'd like to propose we move this meeting back one week to give us time to have a more in-depth internal discussion. If we postpone one week we can talk before Jeremy goes on vacation July 1-12th. I apologize for moving this date, but I think it's better for us to be more prepared for this call and have some ideas for how to test AVERT with ERTAC results.

I appreciate your understanding.

Best,

Robyn (Kenney) DeYoung
